🎖 CERTIFICATES

Infosys Certified Python Pro Programmer ↗

Infosys Certified Front end Developer ↗

Rising star Tag receiver for helping in crucial moments in developing websites and helping in fast coding

Won Hackathon conducted by RNSIT College ↗

📁 PROJECTS

Admin Dashboard ↗
Enterprise Company Dashboard with Backend Support
Tech Stack - React JS, Material UI, HTML, React Router V6, **Redux Tool kit*, NPM, Babel, @mui-data-grid, @nivo packages***
Remarkable Features -

- Products ***Pagination***, Genre filter by categories, **Customer integration**, varieties of product supply , Location Management, **Overview of dashboard** of all division on one call, **Report Management**, Performance Reports
- ***Location Integration*** using @nivo Packages with backend geometry.
- JWT Authentication, JSON Web Tokens

Socialio ↗
A Social media app
Tech Stack - React JS, React Context API + useReducer, Material UI, ***Boot Strap***, NPM, Pure CSS for Design, React Router V6, HTML, ***Fire Base*** as Backend, Restful API
Remarkable Features -

- **Infinite Scrolling,** Handling **DOM Manuplication**.
- Creating & Follow users, Edit Profile**, *Avatars***
- Image, Video, Like, comment, Book Mark and Emojis Support for posts.
- Search Users using ***Debouncing***.
- ***JWT Authentication***

Movix ↗
Don't miss any updates of movies
Tech Stack - React JS, ***Redux Tool Kit***, SASS for Design, HTML, IBDM ***RESTful APIs***, NPM, ***axios***, dayjs,
Remarkable Features -

- ***Lazing loading*** react component
- ***Debounce Search*** for searching of movies
- Infinite scroll in explore and search page
- ***Skeleton animation*** while loading
- Specifications of each and every component about the film, rating, genre, Detail page view, Toggle Tabs, handling videos
- ***Responsive*** in mobile

PUBLICATIONS

Restaurant & User Api Collection ⬀

The API of restaurant management provides a set of REST APIs for managing all aspects of a restaurant

Tech Stack - **Node.js, Express JS, Mongoose, JavaScript** *Functionality & model*, **MongoDB**
